

Pressure reducing station

Pressure reducing station

Pressure reduction station to reduce fluctuating inlet pressure P_1 (for example from pressure storage) to constant outlet pressure P_2

SCOPE OF SUPPLY

- 1x Particle filter, 20 μm
- 1x Pressure reducer (adjustable)
- 1x Pressure gauge for inlet and outlet pressure
- 1x Safety valve for outlet pressure
- 2x Ball valve
- 1x Panel for wall mounting

VERSIONS

Order number	Max inlet pressure [bar]	Outlet pressure [bar]	Sicherheitsventil [bar]	KV*
077838-V001	365	5 - 40	45	0,07
077838-V002	365	41 - 100	110	0,07
077838-V003	365	101 - 220	250	0,07
077838-V004	365	221 - 350	365	0,07
077838-V005	465	34 - 240	260	0,08
077838-V006	365	41 - 230	250	0,72

*Other pressures are available on request *valid for the pressure reducer*
